

6INCH COMPACT TURNING CENTER

LEO

1600

DN SOLUTIONS

LEO 1600

LEO 1600 realizes high productivity by supporting the largest processing area of the class with a compact installation area. High-strength octagonal turret provides excellent performance for strong cutting and enhances convenience with user-friendly design.

COMPACT DESIGN PROVIDES MAXIMUM PROCESSING AREA COMPARED TO CLASS

- Size : 1850 mm
- X-axis travel distance : 175 mm
- Z-axis travel distance : 330 mm

LEO 1600 SUPPORTS STABLE PROCESSING

- 30 degree inclined bed structure and high rigidity roller type LM guide for all axes
- Fast and stable tool selection by high-strength octagonal turret

IT'S EASY TO USE

- Easy to monitor the processing status according to the application of inclined door windows
- Application of rear chip discharge system standard

BASIC STRUCTURE

LEO 1600 includes a 30°slanted stable bed structure with highly rigid roller type LM guideway for reliable machining.

A small footprint with big capabilities

The machine is a compact design with 1850 mm width and comes with a 175 mm X-axis stroke and 330 mm Z-axis stroke.

Travel

X-axis **175** mm
6.9 inch

Z-axis **330** mm
13.0 inch

Rapid feederate

X/Z-axis **30** m/min
1181.1 ipm

MACHINING AREA

LEO 1600 offers the largest machining area in its class.

Bar working diameter

45 mm
1.8 inch

Max. Allowable workpiece weight

(including chuck)

Chuck work **70** kg

Shaft work **150** kg

SPINDLE

Highly reliable spindle with high-rigidity spindle bearing design is available with chuck size 6 inch standard, 8 inch option.

Chuck size

170 {**210** OPTION} mm
6{8} inch

TURRET

The durable eight station turret ensures stable tool rotation and increase machine performance.

Tool holder size

□ **20 x 20** mm
(□ 0.8 x 0.8 inch)

No. of tool positions

12 ea

TAILSTOCK OPTION

Rigid tailstock is available to provide stable support of long workpieces.

Quill diameter

65 mm
2.6 inch

Tailstock / Quill travel

320/80 mm
12.6 / 3.1 inch

Live tail center

MT#4

EASE OF OPERATION

User friendly design for ease of operation

- Easy monitoring with reclined front window
- Rear side chip disposal
- Routine maintenance details are placed in front

STANDARD | OPTIONAL SPECIFICATIONS

A range of options is available to suit individual requirements.

Description	Features	LEO 1600
Chuck	6 inch	●
	8 inch	○

* Please contact your DN Solutions representative for detailed machine information.

* When using a semi-synthetic type or synthetic type, contact our sales representative or service center in advance.

● Standard ● Optional X Not applicable

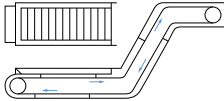

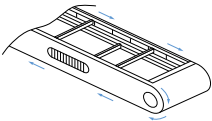

There is a high risk of fire when using non-water-soluble cutting fluids, processing flammable materials, neglecting the controlled and careful use of coolants and modifying the machine without the consent of the manufacturer. Always check the SAFETY GUIDELINES carefully before using the machine.

PERIPHERAL EQUIPMENT

Chip conveyor OPTION

The chip conveyor with its stable design delivers excellent chip disposal, superior operation and maintenance convenience. Users can select the optimum type of conveyor that meets their specific machining and floor space requirements.

Name	Hinged belt	Magnetic scrapper
Application	Steel	Cast steel
Features	<ul style="list-style-type: none"> • General use • Suitable for steel applications producing 30mm chips or longer 	<ul style="list-style-type: none"> • Easy-to-understand manual • Chips are scraped up and discharged
Shape		

Rear chip conveyor OPTION

A combination of an all-in-one bed and a dual chip conveyor that have secured channels for discharging left and right chips ensures smooth chip discharge.

Signal Tower OPTION

Device to show present statuses of the machine.

Coolant Chiller (recommended) OPTION

A coolant chiller is recommended to help prevent temperature rises and to reduce thermal deformation when using a water-insoluble coolant or high-pressure coolant system (i.e., power over 1.5kW).

Quick change CAPTO OPTION

The quick change tool system simplifies tool change operations. Recommended for users who need to change tools frequently or to reduce set-up times.

Part catcher OPTION

The part catcher automatically catches machined parts and ejects them from the machining area.

Dust Collector OPTION

The dust collector absorbs airborne oil vapor and fine dust in the system to improve working environment.

Coolant blower OPTION

Oil Skimmer OPTION

The oil skimmer keeps coolant and lubricant isolated from each other to extend the lifecycle of coolant.

DN SOLUTIONS FANUC i PLUS

DN Solutions Fanuc i Plus maximizes customer productivity and convenience.

10.4" Screen + New OP

It is an easy and fast operation for the customer to operate featuring the familiar design via ONG button.

DN Solutions Fanuc i Plus

- 10.4 inch display
- Intuitive and user-friendly design

USB & PCMCIA card ONG keyboard

- Ergonomic operator panel
- 2MB memory
- USB (standard)

EZ WORK

DN Solutions's unique EZ WORK offers tool management function, peripheral device settings, operation, online help, and other functionalities to maximize operational efficiency and user convenience.

Productivity Monitoring

Tool Load Monitoring

SKETCH-TURN OPTION

DN Solutions Conversational programming software for PC

- Easy to learn for beginners
- Time savings in programming
- Reduce processing cycle time

The DN Solutions promise, MACHINE GREATNESS, has two important meanings. The first is simple: DN Solutions makes great machines. The second is a challenge to our end-users. With a product line that is this comprehensive, accurate and reliable, we equip our customers to machine greatness. **The big question: *Why should you choose DN Solutions over other options?***

Here's why...

**MACHINE
GREATNESS™**

WHAT YOU MAKE AND HOW YOU MAKE IT MATTERS—SO MAKE IT
GREAT WITH DN SOLUTIONS.

UNBEATABLE MACHINES

You won't find a more comprehensive range or a better combination of value, performance and reliability anywhere else.

ROBUST PRODUCT LINE

We offer an impressive range of machine models and hundreds of configurations. Whatever your machining needs and requirements, there's a DN Solutions for you.

READILY AVAILABLE - ANYWHERE IN THE WORLD

Machining centres (including 5-axis machines), lathes, multi-tasking turning centres and mill-turn machines, and horizontal borers with best-in-class specifications are all available...ready to install.

EXPERT SERVICE

Our dedicated, experienced and knowledgeable team is totally committed to improving your productivity, growth and success.

RESPONDING TO CUSTOMERS ANYTIME, ANYWHERE

DN Solutions Global Network

DN Solutions provides systems-based professional support services, before and after the machine tool sale, by responding quickly and efficiently to customers. By supplying spare parts, product training, field service and technical support, we provide the expert care, attention and assistance our customers expect from a market leader.

Global sales and service support network		51	Technical centers Technical center, Sales support, Service support, Parts support

CUSTOMER SUPPORT AND SERVICES

We're there for you whenever you need us.

We help our customers operate at maximum efficiency by providing them with a range of tried, tested and trusted services - from pre-sales consultancy to post-sales support.

Field services

- On-site service
- Machine installation and testing
- Scheduled preventive maintenance
- Machine repair service

Parts supply

- Supplying a wide range of original DN Solutions spare parts
- Parts repair service

Training

- Programming, machine setup and operation
- Electrical and mechanical maintenance
- Applications engineering

Technical support

- Supports machining methods and technology
- Responds to technical queries
- Provides technical consultancy
